**Title: TreatmENT of AnastomotiC LeakagE after rectal resection**  
**Filenumber: 2019-5849**  
**Date of approval: the 17<sup>th</sup> of October 2019**

Dear Mr. van Workum,

On behalf of the research ethics committee of the Radboud University Nijmegen Medical Centre I hereby let you know that the abovementioned study doesn't fall within the remit of the Medical Research Involving Human Subjects Act (WMO).

The study has been reviewed by the ethics committee on the basis of the Dutch Code of conduct for health research, the Dutch Code of conduct for responsible use, the Dutch Personal Data Protection Act and the Medical Treatment Agreement Act

The ethics committee has passed a positive judgment on the study.

The documents mentioned in appendix 1 have been reviewed.

Sincerely,

Prof. dr. P.N.R. Dekhuijzen, Chairman  
Research Ethics Committee  
Radboud University Nijmegen Medical Centre
